Empowering Your Digital Journey

At **Datacore**, we go beyond the conventional notion of a company; we proudly position ourselves as your strategic partner in navigating the intricate landscape of Information and Communication Technology (ICT). Our journey began in 2007, and since then, we have been dedicated to serving the whole Kingdom of Saudi Arabia.

Our Commitment

As pioneers in the field of ICT solutions, infrastructure design, and network consultancy, our commitment lies in fostering innovation and ensuring unparalleled customer satisfaction. Our expert team is at the forefront of leveraging groundbreaking technology to provide a diverse portfolio of specialised ICT products, services, and consultancy. Regardless of whether you represent a small business or a large organisation, we possess the technical expertise needed to help you attain your goals.

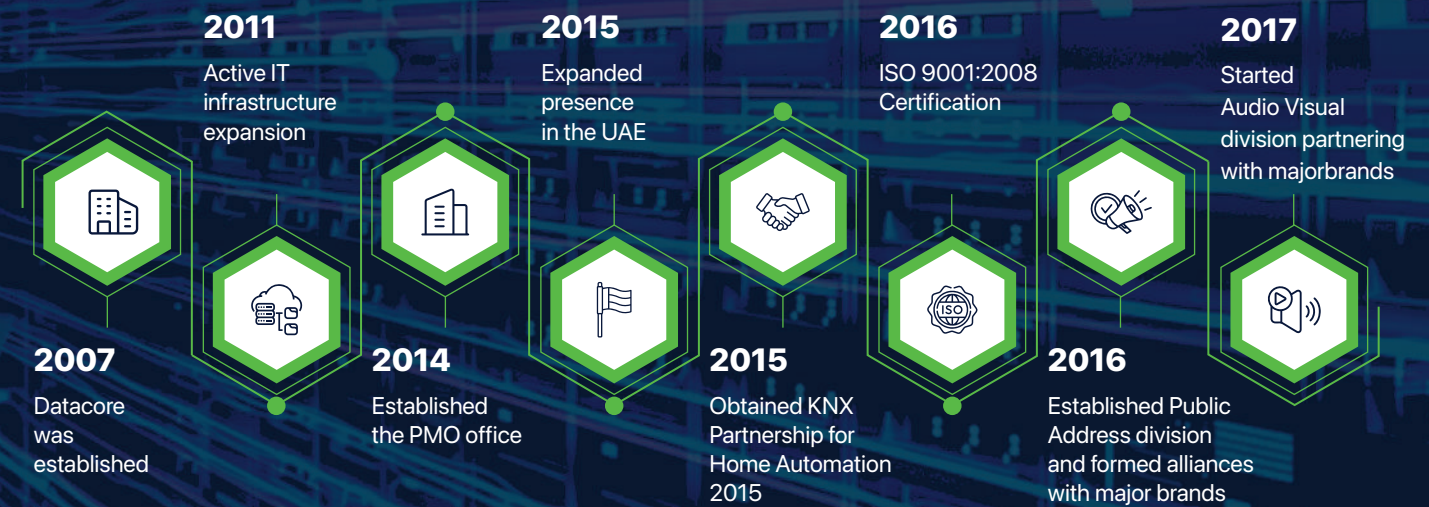

Our Mission

Our main goal is to make our customers successful by building strong, lasting partnerships and always providing excellent ICT solutions that greatly help their business goals.

Our Vision

We aspire to attain a global presence as a prominent IT infrastructure builder and integrator while pioneering innovative products in ICT and low-current market trends.

1. Network Infrastructure Services

"Building Connectivity, Securing Networks, Powering Progress"

Structured Cabling Solution

Datacore excels in creating versatile cabling solutions for data, voice, video, and multimedia systems. Our certified experts customize integrated systems for clients. This ensures efficient communication and connectivity, enhancing overall operational efficiency.

Wireless Connectivity

Datacore provides cost-effective, secure, and scalable wireless solutions for all needs. We deploy secure, scalable WLANs for indoor and outdoor connectivity, supporting data and voice applications effectively.

Our Specializations Include:

- Hot Spots & Hot Zones** : Create designated areas of wireless excellence.
- Mobile Data Offloading** : Optimize mobile network for efficiency.
- Business Access** : Elevate connectivity for your enterprise.
- Residential Access** : Deliver high-speed connectivity to homes.
- Smart City** : Foster connectivity in urban environments.

Network Security

Datacore specializes in network security, offering a comprehensive suite of services. Our experienced IT Security Professionals are dedicated to providing tailored insights to enhance your infrastructure, ensuring a secure and resilient network.

Consulting & Project Management

Our PMP-accredited Project Management Office ensures efficient, end-to-end oversight, encompassing task planning, scheduling, and resource management.

Fiber Optic Solution

Fibre optic cables are a reliable and cost-effective choice for excellent communication quality, including voice, video, high-speed internet, and data. Datacore's certified experts excel in outdoor and indoor fibre optic cable work.

Unified Communication & Collaboration

Unified Communication and collaboration (UCC) enhances productivity and connectivity, enabling seamless communication for remote teams. Datacore excels in UCC, partnering with global leaders like Cisco, Avaya, and Microsoft.

2. Datacentre Solutions

"Designing, Managing, and Ensuring Reliability"

DC Design & Implementation

- ▶ Datacore specializes in data centre tier Design per Uptime Institute USA standards and TIA942 compliance.
- ▶ Experienced designers use the latest technology for data centre solutions.
- ▶ Comprehensive Turnkey Project solutions from site assessment to maintenance and upgrades.
- ▶ Capacity to build data centres exceeding 1 MW.
- ▶ Tailored availability options: N, N+1, 2N, or 2N+1.
- ▶ Customized cooling system design (water-cooled or air-cooled) based on density, environment, and budget.

DC Assessment & Recommendations

- ▶ Datacore offers experienced resources for data centre assessment and management.
- ▶ Comprehensive assessment services, including site surveys.
- ▶ Insights into power, cooling, space layout, redundancy, site conditions, and risks.

DC Facility Management

- ▶ Datacore consultants develop data centre management programs.
- ▶ These programs adhere to TIER Design and Facilities standards.
- ▶ Minimize human errors, a common cause of downtime.
- ▶ Ensure efficient and reliable data centre operation.

Implementation & Testing

At Datacore, we have the expertise and tools to set up and test all the equipment needed for your data centre infrastructure. We use specific testing methods to make sure everything works efficiently.

3. Surveillance & Security Solutions

"Safeguarding Your World: Your Ultimate Security Partner"

Smart Access Control

Datacore's advanced smart access control surpasses traditional methods. It enforces business rules, manages diverse permissions, and ensures compliance. Utilizing card readers, RFIDs, fingerprints, and keypads, we offer security solutions for all needs, from critical sites to cost-effective wireless options.

Biometric Access Solutions

Datacore's experts offer integrated biometric access control solutions. Our readers simplify fingerprint enrolment and template management in the SEQRE Smart Access system, featuring advanced functions like anti-pass-back dual authorization, zone counting, interlocking doors, etc.

IP Video Surveillance

Datacore offers a complete range of solutions for different industries. Whether you need a few cameras or many, our solutions are easy to install and adapt to changing needs. With our experience in network video technology, you can trust Datacore for your IP surveillance needs.

Video Door Phone Solutions

Datacore provides high-quality video door phone products for your security system. Our experts can give you all the details about these devices. They help you stay informed about the latest security products in the market.

4. Audio-Visual Solutions

"Transforming Your Meetings with Cutting-Edge AV Solutions"

At Datacore Solutions, we elevate your conferences, congresses, and business events in the KSA with premium Audio-Visual [A/V] and IT solutions. Our expertise spans projects of any size, from crafting innovative conference rooms to delivering state-of-the-art technology.

Dynamic AV Presentation Rooms

Tailored for educational and corporate environments, our AV presentation systems are designed with precision. We take into account audience preferences, speaker/microphone coverage, and screen size.

Smart Meeting Rooms Made Smarter

We provide premium Audio-Visual solutions, from screens to Video Conferencing, room booking, and automation systems. Streamline collaboration and cut costs effortlessly.

Revolutionize Your AV Conference Rooms

Datacore's AV conference rooms empower organizations of all sizes to enhance communication, idea sharing, and critical discussions. We equip you with innovative business communication tools while eliminating distractions.
